Organizing Committee

- Aravossis Konstantinos, National Technical University of Athens, GR, Chairman
- Chrysanthopoulos Nikolaos, National Technical University of Athens, GR
- Dervissi Alexandra, ARVIS SA/PASEPPE, GR
- Fountzoula Christina, National Technical University of Athens, GR
- Kalaitzi Eirini, National Technical University of Athens, GR
- Kapsalis Vasilis, National Technical University of Athens, GR
- Kokkali Anna, HSWMA, GR
- Mitsikas Alexandros, National Technical University of Athens, GR
- Nikoloudis Christos, National Technical University of Athens, GR
- Papadakis Antonios, PASEPPE, GR
- Strantzali Eleni, National Technical University of Athens, GR

International Scientific Committee

- Aravossis Konstantinos, National Technical University of Athens (NTUA), GR
- Andreopoulos Andreas, National Technical University of Athens (NTUA), GR
- Assenova Marianna, SERC, Sofia University, BG
- Baas Leo, Linköping University, SE
- Backhaus Julia, Maastricht University, Netherlands
- Bourtsalas Athanasios, Columbia University, USA
- Cheeseman Christopher, Imperial College London, UK
- Ciliz Nilgün, Bogazici University, TR
- Christiansen Kim, Danish Standard, DK
- Davies Anna, Trinity College Dublin and Royal Irish Academy
- Errazkin Olatz, Prospektiker, ES
- Fresner Johannes, Stenum, AT
- Glavič Peter, University of Maribor, SI
- Hernaez Oihana, Prospektiker, ES
- Hirsbak Stig, Aalborg University, DK
- Huisinigh Donald, University of Tennessee, USA
- Jong Annelise de, Delft University of Technology, Interactive Swedish ICT, SE
- Kalleitner-Huber Maria, Austrian Institute of Ecology, AT
- Kalogirou Efstratios, National Technical University of Athens, GR
- Karlsson Reine, Lund University, SE
- Kováčič Lukman Rebeka, University of Maribor, SI
- Koukouzas Nikolaos, CERTH, GR

- Kungolos Athanasios, Aristotle University of Thessaloniki (AUTH), GR
- Leuenberger Heinz, UNIDO, AT
- Loizidou Maria, National Technical University of Athens (NTUA), GR
- Lorek Sylvia, Sustainable Europe Research Institute, DE
- Lozano Rodrigo, Utrecht University, NL
- Moussiopoulos Nicolas, Aristotle University of Thessaloniki (AUTH), GR
- Neslihan Doğan Sağlamtimur, Ömer Halisdemir Üniversitesi, TR
- Psomopoulos Konstantinos, T.E.I. Piraeus, GR
- Quist Jaco, Delft; University of Technology, NL
- Remmen Arne, Aalborg University, DK
- Rocha Cristina, LNEG, PT
- Ružička Pavel, PREPARE Network, CZ
- Sahakian Marlyne, University of Lausanne, Switzerland
- Samaras Petros, TEI of Thessaloniki, GR
- Schnitzer Hans, Graz University of Technology, AT
- Schonfelder Thomas, ATMOTERM, PL
- Schwager Petra, UNIDO, AT
- Sieber Willie, Austrian Institute of Ecology, AT
- Staniskis Jurgis, KTU, LT
- Szilagyi Aida Sorina, NCSPC, RO
- Taticchi Paolo, Imperial College, UK
- Tatsiopoulos Ilias, National Technical University of Athens (NTUA), GR
- Themelis Nikolaos, Columbia University, USA
- Tukker Arnold, TNO Delft, NL
- Vadovics Edina, GreenDependent Institute, Hungary
- Vergragt Philip, Tellus Institute, USA
- Vrtič Peter, University of Maribor, SI
- Voulvoulis Nick, Imperial College London, UK
- Zabaniotou Anastasia, Aristotle University of Thessaloniki (AUTH), GR
- Xianlai Zeng, Tsinghua University, CN

Editors' Preface

The European Roundtable for Sustainable Consumption and Production -ERSCP is one of Europe's most remarkable conferences in its field and has taken place periodically since 1994. ERSCPs favour discussions about the key issues in sustainable consumption and production, the exchange of thoughts, knowledge, experiences and SCP proposals and the creation of a European (also worldwide) community of research and practice in sustainable consumption and production. The main goal of the ERSCPs is to encourage discussion amongst stakeholders involved in sustainable consumption and production: businesses, public institutions, universities, institutes and research centres, NGOs, SMEs, professional associations, decision-makers, etc.

The 18th European Roundtable for Sustainable Consumption and Production Conference was held in Skiathos island, between October 1 and 5, 2017.

Skiathos that was chosen to host the 18th ERSCP is an enchanting corner of Greece, a masterpiece of nature, full of olive-trees, pines, fennel and thyme, an attracting pole for all kind of visitors. Also, it has rich cultural heritage and it affords a wealth of tourist facilities.

A total of 228 manuscripts are included in the book of abstracts. Participants from 37 different countries contributed their work to the conference. The organizing committee chose this time to publish the book of abstracts in a hard copy volume and edit the submitted full papers in e-proceedings in a CD-Rom. It has to be noticed that the CD-Rom is properly edited and has a separate ISBN number.

The main themes of the conference can be summarized in the following categories:

- Circular Economy
- Zero waste management
- Eco-Innovation
- Eco-Design/Design for Sustainability
- Eco-Efficiency, Sustainable/Smart Cities
- Advances in Sustainable Consumption & Lifestyles
- Sustainability in Production & Design
- Sustainable Consumption and Food Waste Prevention
- Sustainability Innovations Research and Development
- Challenges for making progress in cross-cutting themes including Green and Inclusive Entrepreneurship & Sustainability
- Ethical Investments
- Food & Waste

The abstracts and papers have been arranged in the following topics:

- Buildings
- Resources
- Energy

- Waste
- Industry
- Operations
- Environment
- Management
- Economics
- Entrepreneurship
- Renewables
- Tourism
- GIS
- (Zero) waste management and Circular Economy
- Design for sustainability
- Resource Efficiency
- Sustainable products and Sustainable production
- Advances in Sustainable Consumption & Lifestyles
- Sustainability Research, Development and Innovation
- Sustainable/Smart Cities and Communities
- Sustainability policy and Future Development
- Education for Sustainable Development
- Food & Waste

Also, the abstracts and papers have been arranged in the following special sessions:

- Special Session 1: Education for Sustainable Development
- Special Session 2: Fare Sharing
- Special Session 3: Sustainable/Smart Cities and Communities
- Special Session 4: Everyday futures, Sustainable lifestyles
- Special Session 5: Sustainable design, Circular economy
- Special Session 6: Food and Waste
- Special Session 7: Sustainable clothing consumption

The editor would like to thank:

- The ERSCP Society for being eager to organize a joint event with NTUA;
- The authors of the papers, for their scientific contributions;
- The reviewers of the papers for their invaluable assistance in order to ensure high scientific standards;
- The sponsors of the 18th ERSCP Conference for their support;
- The PREPARE Society and members for their support;
- All participants for their involvement in the exchange of knowledge, know-how and ideas, which is the essence of this conference;
- Grafima Publications for their collaboration as well as their contribution to the editing of both the book of Abstracts and the e-proceedings.

The Editor
Prof. Konstaninos Aravossis

Table of Contents

Organizing Committee.....	iii
International Scientific Committee.....	iii
Editor's Preface.....	v
Table of Contents	ix
Conference Programme.....	xxvii

Session 1:

(Zero) waste management and Circular Economy

Financing a circular economy:

What can we learn from related literature streams?

<i>K. A. Whalen and L. Kasnitz</i>	3
--	---

A techno economic assessment of waste management scenarios in Attica -Greece

<i>A. Mitsikas, K. Aravossis, A. Kungolos</i>	4
---	---

Circular Business Model Framework:

Mapping value creation architectures along the product lifecycle

<i>J. L. K. Nußholz</i>	5
-------------------------------	---

Process and Policies towards a Circular Economy

Lead to major Knowledge Questions

<i>R. Droop</i>	7
-----------------------	---

Sustainable production and consumption under uncertain supply chain in cyclic economy

<i>C. A. Tsiliyannis</i>	9
--------------------------------	---

Evaluation of economic and environmental aspects in a European WEEE recovery network: an LCA-based approach

<i>L. Messmann, P. Hutner, D. Stindt, A. Thorenz and A. Tuma</i>	10
--	----

Challenges of circular economy innovation - Compared to traditional business innovation issues

<i>E. Guldman and R. D. Huulgaard</i>	12
---	----

Building a theoretical foundation for operationalizing circular economy through coepetition

<i>R. Narayan</i>	13
-------------------------	----

18th European Roundtable

vii

for Sustainable Consumption and Production, 2017

Skiathos Island, Greece • October 1-5, 2017

Book of Abstracts

ISBN: 978-618-5271-23-7

The Circularity Compass – identifying circular strategies <i>F. Blomsma</i>	14
On some aspects regarding Horizon 2020 projects influence over Circular Economy Innovations Components’ <i>L. Popa, V. N. Popa</i>	15
The circular economy innovation journey <i>R. D. Huulgaard and E. Guldmann</i>	16
A paradigm shift in wastewater treatment: discourse analysis and political interpretation <i>K. Ampe, E. Paredis, L. Asveld</i>	17
Towards Better Practices of Circular Economy and Related Methods on Interrelationships among Sustainability, Food Systems and Diet <i>T. Lu, A. Halog</i>	18
Acoustical, mechanical and thermal properties of a nonwoven composite fabric made of natural musaceae fibers for residential building applications <i>M. A. Argotti, V. H. Guerrero and D. Quirola</i>	19
Supply Chain Collaboration for Circular Buildings: three cases from the Netherlands and transition relevance <i>E. Leising, J. Quist, N. Bocken</i>	21
Increasing the reuse of building materials: a case-based policy approach <i>L. Millios and L. Hadartz</i>	22
Unboxing the look: psychological factors promoting circular consumption behaviour in the women’s apparel industry <i>J. Camacho Otero</i>	23
Unfolding circular economy technological opportunity discovery in Norwegian R&D public support programs through text mining methods <i>R. R. Hermann, A. Jensen</i>	24
A review of data driven approaches for circular economy in manufacturing <i>O. Okorie, A. Tiwari, F. Charnley, M. Moreno, J. Oyekan</i>	25
The circularity options grid: primary considerations for circular economy business models <i>G. Brennan and F. Blomsma</i>	27
The upside of plastic manufacturing <i>A. de Jong*, E. Önnvall, A.-C. Mellquist</i>	29

Reconditioning of consumer electronics – identifying design and non-technical barriers	
<i>A. M. Bundgaard</i>	30
Business model innovation for sustainability: A case study on Eco Innovation in Sri Lankan dairy sector	
<i>G. G. U. Sankalpani, N. W. S. Kumarasena</i>	31
Adopting sustainable business models: case study on application of eco-innovation in agri-food sector, Sri Lanka	
<i>P. M. S. Vilochani, N. W. S. Kumarasena</i>	32
Communication and marketing approaches in pursuit of a circular economy: a review of practical examples from the UK	
<i>L. Chamberlin, C. Boks and I. Nilstad Pettersen</i>	33
Session 2: Advances in Sustainable Consumption	
<hr/>	
How can environmental voluntary schemes be introduced, implemented and accepted among consumers? Analysis of environmental labeling, certification and membership schemes from a social innovation perspective	
<i>M. Suzuki</i>	37
Material flow analysis of Chinese urban household	
<i>J. Liu</i>	38
Transforming practices - Exploring the discourse on meat	
<i>M. Kanerva</i>	40
Breaking down the barriers: the impact of environmental knowledge on psychological barriers to energy conservation behavior	
<i>İ. Dursun, E.T. Kabadayı and A.T. Tuğer</i>	41
Activation of citizens by electricity saving competitions	
<i>F. Rubik and R. Müller</i>	43
Enabling Sustainable Consumption at the Workplace: the Role of Participatory Management Practices	
<i>M. Schäfer and E. Süßbauer</i>	44
Antecedents of green purchase intention for packaged food products with regard to environmental packaging: evidence from an emerging market	
<i>A. T. Nguyen</i>	45
A Literature Review of Low Carbon Consumption Behavior in China: New Trends and Research Interests	
<i>J. Shao</i>	47

The linkage between students’ pro-environmental behaviour and sustainable consumption <i>E. Staniškienė, Ž. Stankevičiūtė</i>	48
Local concepts for carbon-neutrality and 100% renewables - a chance for sustainable consumption patterns? <i>F. Rubik, R. Müller, P. Rioussset and S. Salecki</i>	49
Power to the People? Exploring the Mitigation potential of Lifestyle Changes Using a Multi-Regional Input-Output Model <i>G. Vita, J. Lundström, R. Wood and E. Hertwich</i>	50
“Nobody mends clothes anymore”? Environmental implications of Norwegian consumers’ home sewing practices <i>K. Laitala and I. Grimstad Klepp</i>	51
Applying the Delphi method to explore how new business models can stimulate sustainable consumption <i>V.S.C. Tunn, N.M.P. Bocken, E.A. van den Hende, J.P.L. Schoormans</i>	52
Handbags versus e-bikes – A comparison of conspicuous consumption in Egypt and Germany <i>M. Schäfer, H. Hammad, N. El Bassiouny and V. Muster</i>	53
Can sustainable fashion be cool? <i>V. Brown and A. T. Holroyd</i>	54
Implementing low-carbon measures within intentional communities: investigating the role of community-owned infrastructures <i>S. Hielscher and M. Schäfer</i>	55
A fashion library as education for sustainability – an exploratory case study <i>C. V. Becker-Leifhold, A. L. Hirscher</i>	56
Design support - how design activist groups can support personal reorientation towards a less materialistic lifestyle <i>P. Hector</i>	58
Thrifty or green? Basic drivers of energy saving in European households <i>J. Thøgersen</i>	59
Circular public procurement-Approaches and evidence from the Nordic countries <i>K. Alhola, S.-O. Ryding, H. Salmenperä, N. J. Busch</i>	60
Carbon footprint calculators for citizens – 10+1 suggestions for improvements <i>M. Salo, M. K. Mattinen, A. Nissinen</i>	62
I am what I drive: Challenges of sustainable daily commute in UAE <i>S. Iyanna, C. Bosangit, M. Carrigan and J. Lazell</i>	64

Reconciliation of materialistic values with pro-environmental behavior: the case of Lithuania <i>G. Liobikienė and R. Juknys</i>	65
Re-crafting social practices from the grass-roots: A framework for analysing how grass-roots initiatives influence everyday lifestyles <i>W. Spekkink, J. Quist and U. Pesch</i>	67
Thinking green but buying thoughtless? An empirical examination of the attitude behavior gap among German clothing consumers <i>K. Jacobs, L. Petersen, J. Hörisch and D. Battenfeld</i>	68
A Heuristic Algorithm for Operation Scheduling of Electric Water Heaters under Dynamic Pricing <i>G. Safouri and V. Kapsalis</i>	70
 Session 3: Design for Sustainability	
Material efficiency in circular product design: Critical trade-offs <i>A. Mestre and T.H. Cooper</i>	75
Unboxing the look: psychological factors promoting circular consumption behaviour in the women's apparel industry <i>J. Camacho-Otero, C. Boks, I. N. Pettersen</i>	76
Household energy saving agency as self-regulated learning regarding awareness an goal setting: Customized household agency in tools for metering and regulation <i>E. Christiansen</i>	77
The 12 Key Issues of Sustainable Engineering <i>P. Glavič</i>	78
Circular Design – Learning for innovative design for sustainability project <i>J. Segalas, A. De Eyto, M. Mc Mahon, P. Joore, M. Crul, R. Wever and A. Jimenez</i>	80
Using Design Thinking to empower employees for eco-innovation projects <i>A. Buhl and S. Blazejewski</i>	81
Internal company collaborations and its impact on Design for Sustainability implementation in companies <i>F. Ali, C. Boks, N. Bey and R. Stewart</i>	83
Evaluation of a simplified LCA methodology - case study on hand blender <i>I. Bereketli Zafeirakopoulos</i>	84

Design for Sustainability: Mapping the Field <i>A. Í. Gaziulusoy, F. Ceschin</i>	85
Remaking of spaces and eco-design based in sustainable actions <i>R.H.R.Q. Melo, E.F.R.Q. Melo, L.T. Dalla Libera, M.C. Hüther, R.H.R.Q. Melo</i>	86
Wasting of fresh-packed bread by consumers – potential influence of shopping behaviour and preferences <i>S. Østergaard and O. J. Hanssen</i>	87
Experience sustainable development and planned obsolescence in design education <i>A. Freimane</i>	89

Session 4: Economics

Economic quantification of industrial symbiosis from the perspective of the organization <i>M. L. Kambanou, M. Mirata</i>	93
---	----

Session 5: Energy

Sustainable consumption and production in India with INDCs: Opportunities and Challenges <i>S. S. Vishwanathan, A. Garg, V. Tiwari, M. Kapshe</i>	97
Sustainable Energy Action Plans – Experiences of local municipalities <i>P. Soltész, G. Zilahy and T. Pálvölgyi</i>	98
Unit operation based auditing approach for SMS and its application in 280 energy audits across Europe <i>J. Fresner, F. Morea, C. Krenn, J. Aranda Uson, F. Tomasi</i>	99
Multi-criteria decision analysis of fiscal policies promoting sustainable transport <i>R. Fazeli, B. Davidsdottir, E. Shafiei, H. Stefansson, E. I. Asgeirsson</i>	100
Nordic energy technology perspectives; Pathways to carbon neutrality <i>E. Shafiei, B. Davidsdottir, R. Fazeli, J. Leaver, H. Stefansson, E. Ingi Asgeirsson</i>	101
Macroeconomic effects of fiscal incentives to promote sustainable transport through electric vehicles in Iceland: Implications for government and consumer costs <i>E. Shafiei, B. Davidsdottir, R. Fazeli, J. Leaver, H. Stefansson, E. I. Asgeirsson</i>	103

The feasibility of achieving the CO₂ reduction targets for 2030 and 2050 in Japan's household sector	
<i>Y. Kanamori</i>	105
Remoteness, ruptures and routines: energy consumption in an island life	
<i>E. Heaslip and F. Fahy</i>	106
Optimal Levels of Micro-Generation and Distributed Thermal Storage Capacity for Efficient 4th Generation DH Systems	
<i>N. Chrysanthopoulos and N. Karcianas</i>	107
The Future of Sustainable Consumption and Production	
<i>P. Glavic</i>	108
Session 6:	
Enterpreunership	
<hr/>	
Business-led sustainable consumption strategies: the case of HOMIE	
<i>N.M.P. Bocken, C.A. Bom, H.-J. Lemstra</i>	111
Sustainable business models: The influence of competencies for sustainable entrepreneurship on the development of the business model	
<i>V. Blok, L. Ploum, J. van den Brink, O. Willemsen</i>	112
Towards Sustainable Business Models: a refined framework and a multiple case study into renewable energy and car sharing in the Netherlands	
<i>J. Quist, N. van Ginkel, H. Bouwman</i>	114
The role of stakeholder analyses in circular business models: a conceptual framework	
<i>V. Scholten, H. Khodaei, A. Naiknavare</i>	115
Ecopreneurship and business model formation for sustainability – a theoretical frame	
<i>M. E. Paulsson and Å. Gabrielsson</i>	117
How to evaluate new ventures - startups in the field of environment, energy and ecology	
<i>C. Nikoloudis, E. Strantzali, K. Rentzis and K. Aravossis</i>	118

Session 7: Environment

The environmental value of the Maker movement	
<i>E. Unterfrauner, M. Schrammel and M. Hofer</i>	121

Agri-environmental measure and on-farm labour adjustment in the green economy	
<i>Í. Unay-Gailhard, Š. Bojnec</i>	122
Coupling Induction of Tradable Green Certificates and Carbon Emissions Trading Acting on Electricity Market in China	
<i>T. Feng, Y. Yang</i>	124
Pure water project from the perspective of Environmental Engineering	
<i>F. Çiner, N. Doğan-Sağlamtimur</i>	125

Session 8: F o o d

Application of Cleaner Production Principles in Micro Furniture Companies: A study about production processes in Brazil.	
<i>C. S. Catarina, A. L. Luana, R. F. Eduardo</i>	129
UrbanFoodSpots – System for closing the gap between foodwaste and need for food in urban areas	
<i>M. Kalleitner-Huber, C. Pladerer, G. Bernhofer, G. Mraz, M. Pohl, E. Weißenböck</i>	130
Reverse cross-docking in multi-channel redistribution systems for perishable goods – An approach to improve profit and to reduce waste	
<i>M. Thiell and J. P. Soto</i>	132
New social practices and policies in the food system transition	
<i>I. Salavisa and M. de Fátima Ferreira</i>	133
Tackling the consumer food waste dilemma: an exploration of household strategies and lock-ins.	
<i>K. Dobernig and K. Schanes</i>	135

Session 9: G I S

Evaluation with GIS: the impacts of bike paths on the sustainability of a city	
<i>R. H. R. Q. Melo, E. F. R. Q. Melo, R. H. R. Q. Melo, J. H. Q. Melo</i>	139
Planning the change at a projected bicycle path and its impacts at sustainability with the use of GIS and indicators	
<i>R. H. R. Q. Melo, E. F. R. Q. Melo, R. H. R. Q. Melo, J. H. Q. Melo</i>	140

The use of GIS to diagnosis the changes at the city planning <i>R. H. R. Q. Melo, E. F. R. Q. Melo, R. H. R. Q. Melo, J. H. Q. Melo</i>	141
---	-----

Session 10: Industry

Prioretization of indicators for minimization of CO₂ emissions in cement industry <i>N. Bakreska Kormushoska, A. Kochov and E. Politis</i>	145
India Inc Advancing to SDGs: Integrating Principles of Sustainability and CSR <i>R. Ralhan</i>	147
Life Cycle Assessment (LCA) of Latex Household Glove Manufacturing Industry in Sri Lanka <i>K.G.N.H. Weerasinghe, A.K. Kulatunga</i>	150
Bottom-up environmental improvements in the supply chain: A survey of non-implementing companies <i>S. Mejía-Dugand, M. Thiell and A. Quiñones-Sánchez</i>	151
The social license to operate in silicon production – a case study of United Silicon in Iceland <i>L. Johannsdottir</i>	152
Employee’s perception and satisfaction on quality of work life: A case study from Sri Lankan manufacturing sector <i>H.D.P. Premaratne, A.K. Kulatunga</i>	153

Session 11: Management

The relation between managerial satisfaction and environmental performance in organisations with certified Environmental Management System <i>T. Daddi, M. R. De Giacomo, F. Testa</i>	157
The effect of leadership on pro-environmental behaviour: A case study with university employees <i>G. Wiersum, R. Wesselink, V. Blok, M. Smits</i>	158
The DNK “(German) Sustainability Code” – a Smart Way of Sustainability Reporting <i>G. Engelhardt</i>	160

The mediating effect of individual pro-environmental behaviour in the relationship between organisational culture and quality management practices	
<i>E. Staniskiene, J. Ramanauskaite</i>	163
Key Success Factors of Circular Economy Implementation in Manufacturing Firms: A Multiple Case Study	
<i>E. Ünal</i>	164
Circular Economy in the Context of Operations Management: A Literature Review	
<i>E. Ünal</i>	165
Reporting of climate risks and ESG information	
An investigation on ETF fossil free and low carbon investment	
<i>F. Doni and A. Gasperini</i>	166
Environmental supplier relationship management in emerging markets – experiences from Colombia	
<i>M. Thiell, B. van Hoof, J. P. Soto and J. Yañez</i>	168
From a manufacturer of wooden games to a Product-Service System company: a case study on Business Model Innovation as a way of improving sustainable aspects of products	
<i>L. L. Alves, C. M. Gonçalves and E. R. Filho</i>	169
Session 12:	
Renewables	
<hr/>	
Eco-innovation through cost-competiveness in the offshore wind turbine industry	
<i>J. P. Jensen</i>	173
Assessing the circular economy challenges and opportunities of biogas production utilizing manure from dairy cow stables applying sand bedding materials	
<i>R. Lybæk, T. Kjær</i>	174
Small Island Developing States, Renewable Energy Transitions and OTEC	
<i>J. Quist, K. Blok, B. Jan Kleute</i>	176
Analysis of energy potential and socio economic context of using paddy husk as a renewable energy source in Sri Lanka	
<i>P. M. S. Vilochani</i>	177

Session 13: Resource Efficiency and Resources

Scaling up Resource Efficiency and Cleaner Production for a sustainable industrial development <i>A. Szilagyi, M. Mocan</i>	181
Evaluating the relationship between lean thinking and environmental performance in small to medium scale enterprises <i>H.T.S. Caldera, C. Desha and L. Dawes</i>	183
Modelling and model based data analysis basis for next generation CP auditing methods <i>Krenn, C. and Fresner, J.</i>	184
Road map towards zero water milk processing plants – experiences from a Danish Public-Private Partnership <i>P. Lindgaard-Jørgensen, G. Holm Kristensen, M. Andersen</i>	185
The role of source separation in nutrient recovery – comparative LCA (life cycle assessment) of alternative wastewater treatment systems <i>R. Vilpas and S. Lehtoranta</i>	186
Embedding lean and green practices into small to medium scale enterprises: a systematic literature review <i>H. T. S. Caldera, C. Desha and L. Dawes</i>	187
Life cycle analysis as a resource efficiency tool in the agri-food sector of Bogota-Cundinamarca: a case study of the dairy cluster <i>A. T. Prias and K. Ochoa</i>	189
Best production practices in the food industry within circular economy <i>V. Kapsalis, K. Aravossis, D. Fouflias</i>	190
Investigation of Environmental Services Valuation towards inter-organizational system frameworks of circular economy <i>K. Aravossis, V. Kapsalis, G. L. Kyriakopoulos</i>	191
Nordic Green to Scale: Nordic low-carbon success stories to inspire the world <i>O. Tynkkynen, J.-I. Korsbakken, B. Aamaas, B. Davidsdottir and G. Petursdottir</i>	193

Session 14: Sustainability Policy and Future Development

Sustainable urban development and the challenges of urban sprawl; a case study of Abuja the federal capital city of Nigeria <i>I. U. Hussaini, O. Y. Sadiq, S. A. Sumaila and S. K. Abubakar</i>	197
Implementation of Global Sustainable Development Goals: Systems Approach <i>J. K. Staniškis</i>	198
Developing elements for the update of Sustainable Consumption and Production Program for Finland <i>A. Nissinen, S. Lähteenoja, K. Alhola, R. Antikainen, M. Kaljonen, P. Kautto, J. Kuosmanen and M. Salo</i>	199
What do future preferences imply for the circular economy? A ‘random walk’ approach <i>A. Kontogianni, D. Damigos, M. Skourtos and C. Tourkolias</i>	201
Circular Economy, Biosphere Reserves and Bio Corridors for <i>Buen Vivir</i> as Effective Approaches for Sustainable Living in Harmony with Nature <i>D. Quirola and D. Huisingh</i>	202
Ecology mobility: the bike lane as a sustainable solution into a university campus <i>R.H.R.Q. Melo, E.F.R.Q. Melo, R.H.R.Q.Melo, M.S. Kressin, D.G. Grando, L.M.Destri</i>	204
Sustainability-oriented higher education networks: Exploring their role in the context of the UN DESD <i>J. Dlouhá, L. Henderson, C. Mader, D. Kapitulčinová</i>	205
Multicriteria evaluation of liquefied natural gas supply alternatives: The case of Greece <i>E. Stranzali, C. Nicoloudis, K. Aravossis and G.A. Livanos</i>	207
Understanding the dynamics of design and business model strategies for circularity <i>M. Franco</i>	208

Session 15: Sustainability Research, Development and Innovation

An ecosystemic approach for the problems of difficult settlement or solution in our time: a framework for public policies, research and teaching programmes <i>A. F. Pilon</i>	211
--	-----

Sustainability in a Flat Pack? – The Live LAGOM project <i>P. Elf</i>	213
Creating shared value through business model innovation for sustainability: evidence from cases in the Netherlands <i>M. Velter, N. Bocken, R. Kemp, V. Bitzer</i>	215
Urine – An efficient fertilizer for future crop production <i>K. Tuukkanen and M. O’Neill</i>	217
Product service system and mass customisation: reflections on a pilot PSS with infant care products <i>J. Lindley, M. Catulli and N. Reed</i>	218
Current status and contribution of Carbon Capture and Storage (CCS) processes to sustainable development <i>G. Kravanja, Ž Knez, M Škrget and M Knez Hrnčič</i>	220
Empowering green employees for eco-innovation development <i>A. Buhl, L. Petersen and S. Blazejewski</i>	221
Sustainable value creation in product-service systems (PSS) <i>H. S. Kristensen and A Remmen</i>	222
Corporate sustainability activities and systemic sustainability performance <i>M. Zimek and R. J. Baumgartner</i>	224
Creating Business Models for Sustainability: exploring the link between the sustainability awareness of decision-maker and business model innovation <i>A. L. Kiesnere, R. Rauter and R. J. Baumgartner</i>	225
Understanding the potential for unintended consequences of upscaling innovations within the water, energy, food nexus <i>J. Suckling, A. Druckman</i>	226
Could black be the new gold? Eco-challenges in the development of a new luxury material for jewelry <i>C. De Giorgi, B. Lerma, and D. Dal Palù</i>	227
Deriving product-service systems for a circular economy. An outcome driven innovation study in the consumer electronics industry <i>S. Hankammer, S. Brenk, H. Fabry and A. Nordemann</i>	228
“Maritime business performance can improve through synergies and sustainability reporting” <i>Y. Pavlopoulou, K. Aravossis</i>	230
Towards sustainability assessment: guidelines for platform design <i>A. Fontana, M. Sorlini, P. Innocenti</i>	232

Responsible innovation and circular economy: common themes and missed opportunities <i>E. A. Inigo and V. Blok</i>	233
 Session 16: Sustainable Products and Sustainable Production	
<hr/>	
Bridging sustainable innovation with user practices: creating support for socio-technical transformations <i>L. Sopjani, S. Ritzén and J. J. Stier</i>	237
Using multi criteria method for a comparative analysis of automotive products regarding the influence of eco-friendly methods to reduce emissions over product life cycle <i>V. N. Popa, L. P. Popa</i>	238
Business model innovation for sustainability – creating and sharing positive value <i>N. M.P. Bocken, F. Boons</i>	239
Is it enough to be aware of consequences of behavior and to be responsible seeking the pro-environmental behavior? <i>G. Liobikienė and R. Juknys</i>	240
Adoption of sustainable manufacturing in SMEs <i>C. J. Alayón, K. Säfsten and G. Johansson</i>	242
Sustainability strategies in the beer brewing industry with focus on spent grains. Value chain case studies from the Nordic countries <i>M. Happel, S. Bolwig and M. Mark</i>	243
Sustainable design: materials, source and production for new eco-sustainable products and processes <i>B. Lerma, D. Dal Palù and C. De Giorgi</i>	244
Circular ecolabelled products: Do they exist and what are the determinants? <i>J. M. Suikkanen and A. E. Nissinen</i>	246
Behavior of cellulose under subcritical water conditions and its conversion into various products <i>T. Gagić, Ž. Knez and M. Škerget</i>	247
The Development Strategy of Sustainable Bioenergy Investement in Indonesia based on Palm Biomass Feedstock <i>S. Hasibuan, H. Thaheer, R. Eddy Nugroho, J. Hidayati</i>	248

Evaluation of sustainability of cottage industries in Sri Lanka <i>H. M. M. Jayawickrama and A. K. Kulatunga</i>	249
Chemical Leasing <i>I. Kaltenegger</i>	250
Local fashion: Is it sustainable? <i>I. G. Klepp, K. Laitala and G. Vittersø</i>	251
Rainforest Innovation System <i>L. Botelho</i>	252
Session 17: Smart Cities	
<hr/>	
Scaling up circular transition experiments - a case study on barriers of and mechanisms for community initiatives <i>M. J. Hintz</i>	255
How to evaluate new ventures – startups in the field of environment, energy and ecology <i>C. Nikoloudis, K. Aravossis, E. Strantzali and N. Chrysanthopoulos</i>	256
Evolution of Domestic Buildings Energy Markets via Personalized Pricing Schemes towards Energy Efficiency <i>N. Chrysanthopoulos and G. P. Papavassilopoulos</i>	257
Session 18: Tourism	
<hr/>	
Sustainable lifestyles & sharing economy: Consumer-to-consumer platforms in tourism <i>E. Fort, G. Weber</i>	261
Session 19: Waste	
<hr/>	
Preparing for re-use: Assessment and quantification of potentials for WEEE, textiles and bulky waste <i>P. Hutner, M. Dirr, L. Messmann, S. Boldoczki, A. Thorenz and A. Tuma</i>	265
Assessment of energy recovery prospects from forest residues and crop stover in Pella municipality <i>G. Itoudis, G. Perkoulidis and N. Moussiopoulos</i>	267
<hr/>	
<i>18th European Roundtable</i>	xxi
<i>for Sustainable Consumption and Production, 2017</i>	
<i>Skiathos Island, Greece • October 1-5, 2017</i>	
<i>Book of Abstracts</i>	
<i>ISBN: 978-618-5271-23-7</i>	

Towards Sustainable Solid Waste Management for Ahmedabad in India Using Backcasting, Morphological Scenarios And Policy Packaging	
<i>J. Quist, K. Jani, B. Enserink</i>	268
Management of plastic waste – experience from a multi-actor project	
<i>T. B. Christensen and K. Syberg</i>	270
Regional circular economy models and best available technologies for biological streams	
<i>N. Mousiopoulos, Ch. Vlachokostas, Ch. Achilles, A. Malamakis, St. Kontogianni and E. Feleki</i>	271
Free-rider behavior in unit-pricing systems- lessons from case studies in Spain	
<i>M. Calaf-Forn, G. Weber, I. Puig-Ventosa, I. Cabras</i>	272
Impact of rapid population growth on solid waste disposal in Western Province, Sri Lanka	
<i>U. A. Weerathunga</i>	273
Waste management by the municipality of Skiathos – actions done and way to go	
<i>A. Mythi and C. Yiannitsis</i>	274
Special Session 1:	
Education for Sustainable Development	
<hr/>	
Systems thinking as a general asset of scholars	
<i>S. Schnürzler and H. Wilfing</i>	277
Expectations vs. Competencies? Sustainability Transition of Universities	
Competencies of university managers and expectations of students	
<i>M. Besenyei, Á. Zsóka</i>	278
Sustainability – A (European) Ideology for the 21th Century?	
<i>G. Weber, T. Hoerber, I. Cabras</i>	279
Interpretation Design contributions to Heritage Sustainability: a Brazilian case study	
<i>L. G. Aureliano and E. R. Filho</i>	281
Individual Competences for Sustainability in Supply Chain Management	
<i>W. Lambrechts, J. Semeijn, C. J. Gelderman, P. Ghijsen and L. Van Liedekerke</i>	282
Sustainable wastewater management in terms of circular economy – from ideas to practice	
<i>M. O’Neill</i>	283

Special Session 2: Fare Sharing

Fare sharing: practices and sustainability potential of ICT-mediated urban food sharing	
<i>A. R. Davies</i>	287
Food sharing and new social relations in London	
<i>B. Marovelli</i>	288
The barriers and opportunities offered by ICT for food surplus redistribution	
<i>M. Weymes</i>	289
ICT and Communities of Food Sharing Practice in Smart Singapore	
<i>M. Rut</i>	290
Connective consumptions: ecosystems of food sharing activities in Melbourne, Australia	
<i>F. Edwards</i>	291
Berlin's urban food commons	
<i>O. Morrow</i>	292
ECODESIGN+ A tool for teaching life cycle thinking and the product carbon footprint – case study packaging	
<i>R. Pamminger, W. Wimmer, F. Krautzer</i>	293

Special Session 3: Sustainable/Smart Cities and Communities

Entrepreneurship in urban areas	
<i>H. Schnitzer, N. Pötsch, B. Hammerl</i>	297
Jacky_cool_check	
<i>I. Kaltenegger, G. Lettmayer, H. Schwaiger, N. Bird, M. Zuvela-Aloise and K. Andre</i>	298
Political ecology and socio-environmental conflicts in Germany: The case of re-municipalisation for urban regeneration, eco towns, and regional prosperity	
<i>G. Weber, I. Cabras</i>	300
Social innovation and practicing sustainability transitions: a cross-case comparison of five Dutch ecovillages	
<i>I. A. Marselis, F. Avelino, J. N. Quist, U. Pesch</i>	301

Cooperative urban development – how to integrate informal participation processes into formal urban planning processes. Lessons learnt from the Smart City Project Graz	
<i>B. Hammerl, E. Rainer, E. Oswald and O. Konrad and S. Reis</i>	302
Design and co-creation approaches as a solution to develop Smart Cities and Smart Grids	
<i>U. Obinna, M. Crul, P. Joore</i>	304
Empowering Urban Community towards Smart district co-governance	
<i>F. Cappelaro</i>	306
Analyzing urban spatial scenarios for local energy and transport systems with regional integrated models	
<i>K. Gomi, T. Fujita, S. Maki</i>	307
Special Session 4: Everyday futures and sustainable lifestyles	
<hr/>	
Backcasting for Sustainable Lifestyles & a Green Economy: a methodology illustrated for the Netherlands	
<i>J. Quist, W. Spekkink, U. Pesch, E. Leising</i>	311
Humble designing in Design for Sustainability	
<i>A.M. de Jong, L. Reitsma, S Wessmann, E Önnvall, N.Toretta</i>	313
A design fiction manifesto for sustainable lifestyles	
<i>J. Wangel, L. Broms, E. Eriksson, M. Hesselgren</i>	314
Special Session 5: Sustainable design and circular economy	
<hr/>	
KATCH_e: Introducing circular economy into higher-education design curricula. Overview of the training needs, state of the art, trends and policies	
<i>I. Celades, C. Rocha, D. Camocho, K. Schmidt, R. Pamminger, S. Schmidt, M. Kalleitner-Huber, S. Veral and T. Ros</i>	319
Developing a Design for Sustainability training program for vocational education and training and testing it in Austria	
<i>R. Pamminger, M. Kalleitner-Huber, S. Schmidt, C. Rocha, D. Camocho, T. Ros, I. Celades, K. Schmidt, S. Hirsbak, O. Hernáez, O. Errazkin, A. M. Mathiasen, A. Gulman</i>	321
Collaboration among businesses and stakeholders for accelerating transition of cities to Circular Economy: Lessons for Glasgow in Scotland	
<i>O. Hernáez, G. Zawdie</i>	323

Special Session 6: Food and Waste

Food waste across space and place: Understanding the transition of food into waste in the context of urban lives in the UK <i>J. Lazell</i>	327
How to promote a new and sustainable food consumption model: a fuzzy cognitive map study <i>P. M. Falcone and P. Morone</i>	328
System Level Innovations to Reduce Consumer Food Waste <i>A. Jellil, E. Woolley, S. Rahimifard</i>	329
Dimensions of Household Food Waste <i>V. Mavrakis</i>	330
Living up to the ideal – the implications of good intentions as drivers of household food waste <i>M. Hebrok</i>	331
Food waste generation and handling: restaurant data and consumer attitudes <i>R. Dagiliūtė and A. Musteikytė</i>	332

Special Session 7: Catalysts for sustainable clothing consumption: New value propositions for over consumers

Catalysts for sustainable clothing consumption: New value propositions for over consumers <i>C. M. Joyner Armstrong</i>	337
Clothing that lasts: developing and testing garments for longevity <i>T. Cooper, L. Oxborrow, S. Claxton, H. Goworek.^{H. Hill} and A. McLaren</i>	339
Catalysts for sustainable clothing consumption: New value propositions for over consumers <i>L. S. McNeill</i>	341
Catalysts for Sustainable Clothing Consumption: New Value Propositions for Over Consumers <i>K. Niinimäki and M. Durrani</i>	343

Multi-stakeholder perspectives on the challenges and success factors for scaling up upcycling businesses in fashion industry in the UK <i>K. Sung, T. Cooper, M. Painter-Morland, L. Oxborrow, U. Ramanathan and J. Singh</i>	345
Exploring notions of ‘good’ mothering rooted in sustainability: two opposing case studies <i>E. L. Ritch</i>	346
Catalysts for sustainable clothing consumption: New value propositions for over consumers <i>W. Gwozdz, K. Steensen Nielsen, S. Gupta, J. Gentry and T. Müller</i>	350
Designing for the embodied fashion self: personal agency and garment longevity <i>K. Townsend and A. Sadkowska</i>	352
